

Document Dissemination

Distribute your fund documents quickly and efficiently to your distribution partners

Our industry proven Document Dissemination service ensures your fund marketing and legal documents are quality checked and made available to your distribution partners, whilst also meeting local regulatory requirements.

This service is used by many of the fund industry’s largest and most reputable fund managers from around the world. We have agreements with all leading fund managers in Europe, Hong Kong and Singapore with direct interfaces to more than 100 platforms in ten countries. This means you can publish and disseminate your fund and exchange traded fund (ETF) documents via a single reliable platform to your distribution partners worldwide.

How it works

Why FE fundinfo

Our promise

FE fundinfo connects fund managers and fund distributors facilitating efficient investment decisions based on trusted, insightful information.

Contact us at enquiries@fefundinfo.com for more information on how we can help you grow your assets under management, including:

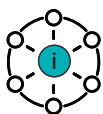

- Data Dissemination
- Data Feeds
- Report Production

Benefits

Distribute your updated documents instantly

Automatic and instant distribution of your fund documents (KIIDS, prospectuses, fact sheets, etc) to your distribution partners worldwide saves you time and resources.

Stay in control of your fund information

You have complete control over the information that your investors and prospects are accessing through one of the world's largest fund information marketplaces – fundinfo.cloud.

Multiple delivery options – push/pull

You can choose between different delivery methods depending on your end recipient. We offer active delivery to smaller distributors such as independent financial advisers (IFAs) through automated emails, or dissemination to large distributors via direct interfaces.

Key features

Compliance tracking

You can track the delivery of your documents to your partners and check they have been accessed. You can also choose your recipients from our large network of banks, fund platforms, data vendors and financial portals.

A complete solution

Combined with our Data Dissemination service, you are able to share essential fund data and daily prices. Fund managers can benefit from a complete solution that satisfies regulatory requirements such as MiFID II and PRIIP KIDs.

Quality control

Our in house team of fund experts will quality control your documents. This means, any missing, ambiguous or erroneous data will be flagged for correction ensuring all fund documents are displaying correct and up to date information.
